DIAGRAM

Database Entity Map

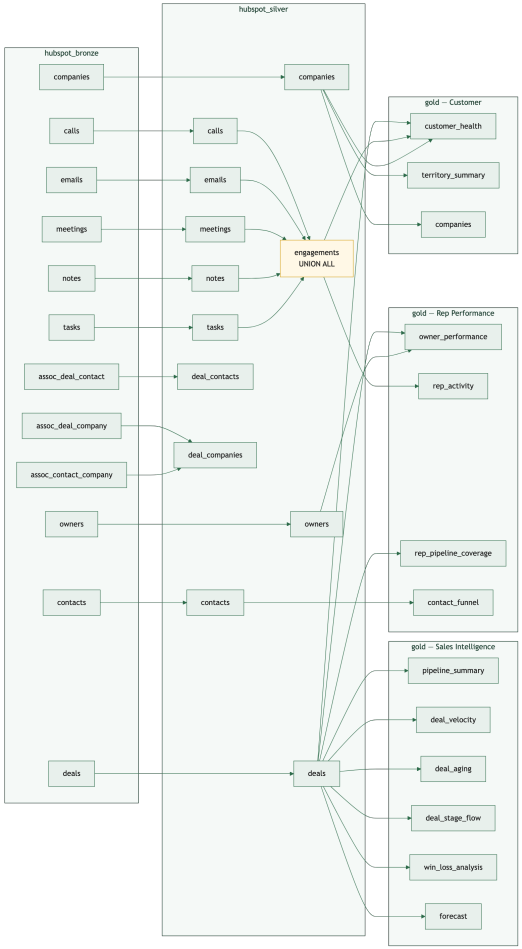
Last Updated: 2026-03-11 | **Owner:** Daniel Shanklin / Director of AI & Technology | **Database:** Supabase (zbscgmkkictwxoridyui)

One diagram per service showing every table from raw ingestion (bronze) through cleaned views (silver) to business metrics (gold). Arrows show data lineage. Services without silver/gold layers are bronze-only today — silver and gold will be built as connectors come online.

HubSpot — Full Medallion Pipeline

23 bronze tables → 22 silver materialized views → 25 gold analytics tables. The only service with a complete medallion pipeline today.

HubSpot — People, Deals & Engagements



HubSpot — Support, Products & Contracts

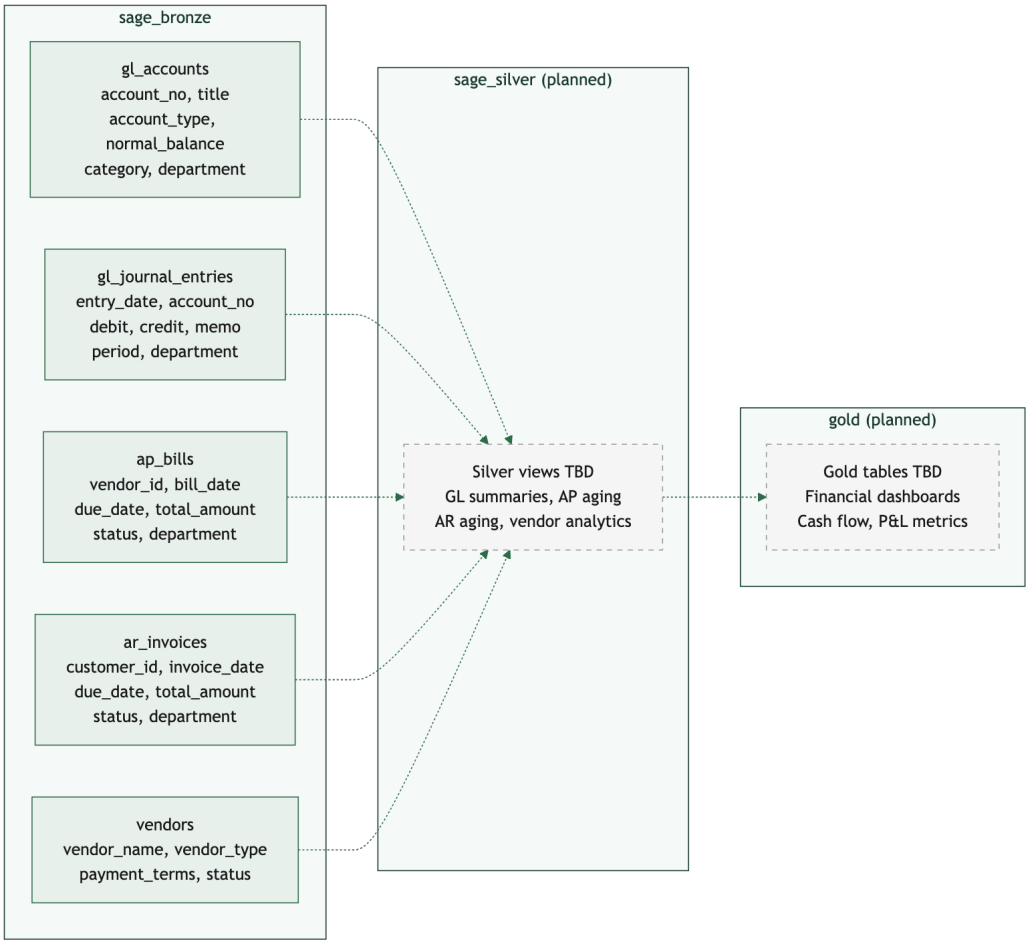
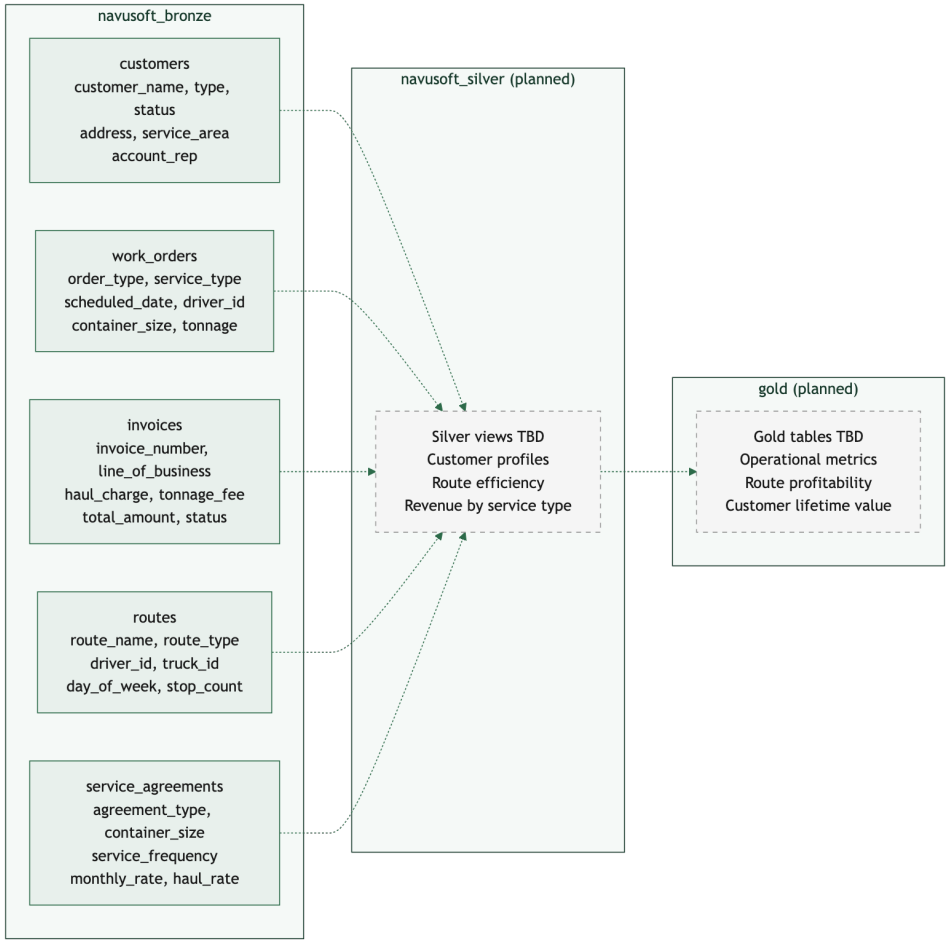
Sage Intacct — Financial Data (Bronze Only)

5 bronze tables for GL, AP, AR, and vendor data. Multi-entity (ntx, hometown). Silver and gold layers planned once sage-intacct connector is implemented.



Navusoft — Operations & Routes (Bronze Only)

5 bronze tables for NTX waste operations: customers, work orders, invoicing, routes, and service agreements. This is the core operational system.



navusoft_bronze
customers

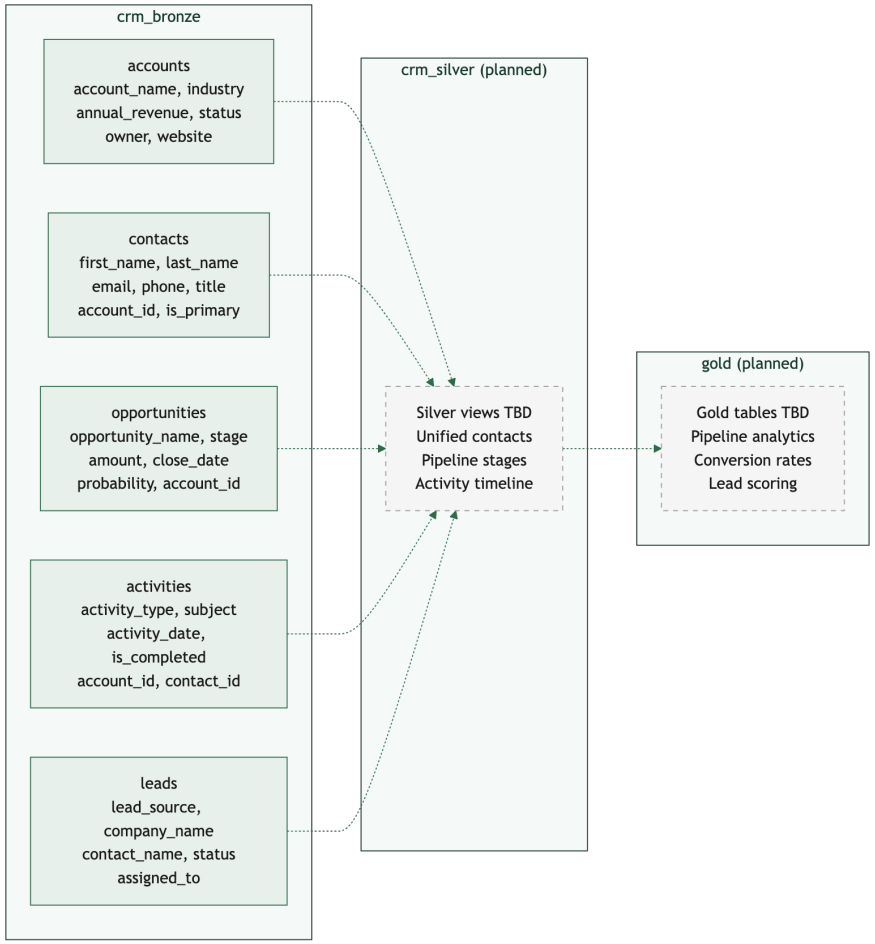
gold (planned)
Gold tables TBD
Operational metrics
Route profitability
Customer lifetime value

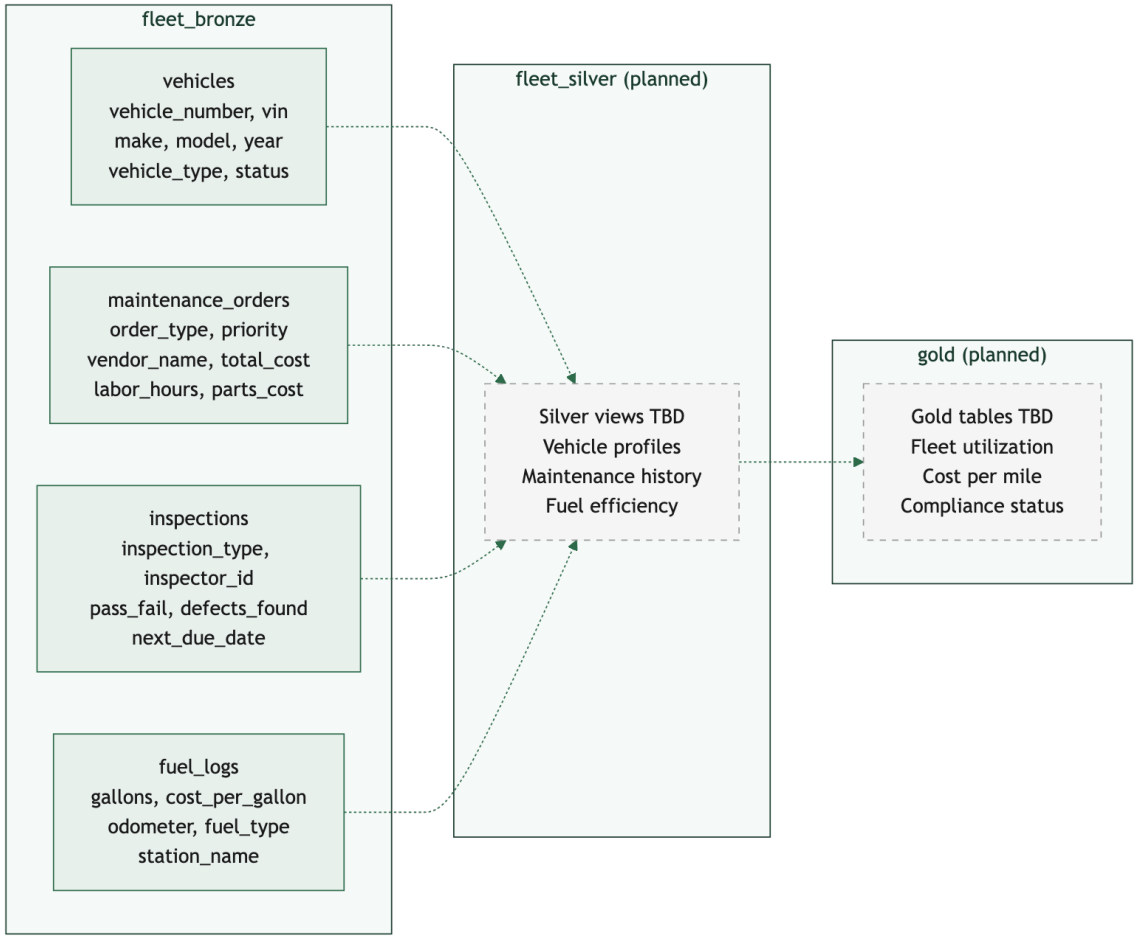
CRM — Generic Sales Pipeline (Bronze Only)

5 bronze tables for multi-entity CRM data (ntx, hometown, memphis). Separate from HubSpot — this is the generic CRM schema for non-HubSpot sources.



Fleet — Vehicle Management (Bronze Only)

4 bronze tables for multi-entity fleet data (ntx, hometown, memphis). Vehicles, maintenance, inspections, and fuel tracking.



fleet_bronze
vehicles
vehicle_number, vin

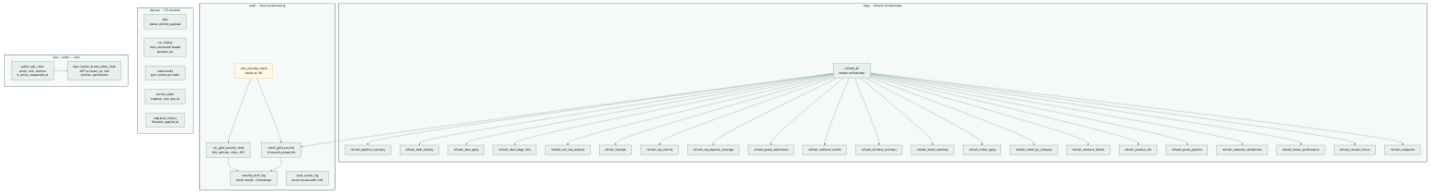
Fuel efficiency
gold (planned)
Gold tables TBD
Fleet utilization
Cost per mile
Compliance status

Supporting Infrastructure

Schemas that power the medallion system but don't belong to a vendor service. Forge orchestrates refreshes, audit monitors security, daemon tracks ETL state.



Object Count Summary

Schema	Tables	Mat Views	Views	Functions	Total
hubspot_bronze	23	—	—	—	23
sage_bronze	5	—	—	—	5
navusoft_bronze	5	—	—	—	5
crm_bronze	5	—	—	—	5
fleet_bronze	4	—	—	—	4
hubspot_silver	—	16	6	—	22
gold	25	—	2	1	28
forge	—	—	—	21	21
audit	2	—	—	3	5
rbac	—	—	—	1	1
public	1	—	—	—	1
daemon	5	—	—	—	5
TOTAL	**75**	**16**	**8**	**26**	**125**

RLS Pattern (All Gold Tables)

Every gold table has RLS + FORCE ROW LEVEL SECURITY. Single policy pattern using gold.current_entities() reading JWT app_metadata. service_role revoked entirely.

JWT entities[]	Access
`['*']`	Wildcard — sees all entities (consolidated view)
`['ntx']`	Single entity — sees only NTX data
`['ntx','hometown']`	Multi-entity — sees NTX + Hometown

JWT entities[]	Access
[ ]	Empty — sees nothing (disabled/unassigned user)
